#### PLANS NEW MILITARY DEPARTMENT IN WEST.

It Is Proposed to Establish Headquarters in Kansas City or St. Louis.

REPUBLIC SPECIAL. Washington, Sept. 2.-It is probable that a new military department will be created in the Middle West to be known as the at Kansas City or St. Louis.

Another new department may be created which might be called the Department of the Atlantic. More than sixty posts now report to Governors Island for headquarters. This is considered altogether too many for good administration. In General Schofield's time a new diviof West Point, with West Point the only garrison. This was abolished, however,

after two years.

There are nine departments in the United States and the plan will result undoubtedly in the creation of three or four new Secretary Root has long favored divi-sion of the Department of the East. The greation of new departments is regarded with great favor by the army, as places are made for Brigadier Generals, each with a complete staff.

Koeile had been a sufferer from nervous diseases for several years and his hand was paisied. His relatives believe that upon going to bed he turned out the gas, but that his hand was so unsteady that he accidentally turned it on again. Koeile went out for a walk Wednesday night and returned home shortly after 10 o'clock. He made no complaint of feeling worse than usual, and retired to his room. Deputy Coroner Boogher went to the home yesterday morning and he believes Mr. Koeile came to his death accidentally. Koeile was born in Germany in 1841. When 24 years old he came to this country and located in St. Louis. For many years he was in the retail toy business. His health compelled him to retire sixteen years ago.

#### JUMPED FROM BURNING HOUSE Bakers Hurt in Efforts to Save Their Lives.

Philip Kleinans and Alex. Baumelster leaped from a burning house at No. 1902 South Broadway at 3 o'clock yesterday morning to save their lives. Kleinans spine was injured by the jump. Baumeister escaped injury.

Baumeister and Kleinans lived above a bakers, which they recently purchased. A defective flue is supposed to have caused the fire. Baumeister was first awakened by the smoke. Flames had eaten into the room. He aroused Kleinans, and both men, without waiting to dress, sought safety. They found the stairway cut off by smoke and flames and hurried to windows.

# COAL COMMISSION NOT YET APPOINTED.

Secretary Hitchcock Probably Will Not Name Members Till President Returns.

RESPONSIBILITY IS GREAT.

Vast Amount of Money Involved and All Kinds of Rumors Are Afloat Concerning Pools to Gobble Up the Lands.

The Republic Bureau, 16th St. and Pennsylvania Ave. Washington, Sept. 3 .- Secretary Hitchcock has received the names of a large number of prominent persons who are desirous of representing the Government on the Coal Land Commission, which is to dispose of the segregated coal fields of the Choctaw and Chickasew Nations of the Indian Territory.

This commission is provided by a sup-plemental treaty between the United States and the Indians, and is to consist of a representative named by the United States. one named by the Governor of the Chickasaws and a third named by the Governor of the Choctaws.

It was stated at the office of Secretary Hitchcock yesterday that, while many men had been suggested for the position on the commission, no action had been taken, and that probably none would be taken until the return of President Roosevelt.

The commission when appointed will have until July, 1904, to sell the coal lands which have been segregated by the Geological Survey and comprise about 440,000 acres. The coal under this land is variously estimated to be worth from \$25 to \$200 per acre. Under the terms of the treaty the land is to be sold in lots of 640 acres each, and expert coal men say that each acre carries about 4,000 tens of coal. The experts of the Geological Survey will not make any statement concerning the amount of coal they think will be found in the lands, although they have frequently been asked for an opinion. TALK OF A POOL

The personnel of the commission is im portant because of the vast amount of money involved in the sales.

There have been rumors that railroads and leading financiers of the East will get the lands for about \$25 per acre and not pay more than \$10,000,000 in all. It is said a pool of enormously rich interests has been secured to gobble up the lands, but this is not credited at the interior De-

but this is not credited at the Interior Department.

The law provides the land shall be auctioned off in such small lots that individuals and private land companies will have a chance to secure desirable lots.

On this basis of small-lot sales and free competition, it is asserted the land should oring \$300 per acre, or a total amount of \$120,000,000, as a trust found for the benefit of the Nations.

Under the original treaty, the Government was to hold the coal lands in common for the Indians and pay a royalty of a cents per ton on all coal mined. If this system had continued the Choctaw Indians would have received about \$140,000,000 for the coal in the segregated district. This royalty, under the former treaty, went to maintaining the public school system of the Choctaw Nation, but the Choctaws objected.

It is said that the railroads and coal speculators have been a potent factor in inducing the Indians to consent to the proposed method of disposing of these inducing the Indians to consent to the proposed methol of disposing of these valuable coal lands. The Indians knew that their tribal Governments would go out of existence in 1905, and were afraid that the new State would selze the coal out of existence in 1905, and were afraid that the new State would seize the coal lands or require the royalites to be paid into a State school fund, which would not greatly benefit the Indians.

The Indian Office is preparing regulations for the sale of the lands, and the details of the manner of conducting the auctions. Officials in the Indian Office do not place much credence in the report of a big pool to buy up the lands at less than their real value, and expect them to go for several hundred dollars per acre.

# DANCING MASTERS CHOOSE ST. LOUIS.

American Society Will Hold Its Next Convention in World's Fair City.

### NEW DANCES IN PROSPECT.

Professors Say That Football Tactics on the Ballroom Floor Must Stop-Henry Doring Chosen President.

REPUBLIC SPECIAL. New York, Sept. 3.-St. Louis was chosen

for the next convention of the American Society of Professors of Dancing at today's session in this city, and Jacob A. Mahler of St. Louis, who has just returned from abroad, was appointed a committee of one to make arrangements for the next annual sessions.

It was at the urgent request of Professor Mahler, who is one of the instructors of St. Louis attending the convention, that the World's Fair city was decided upon. Mr. Mahler assured his brother professors that they would be well taken care of, and that their visit to the World's Fair would well repay them for the long trip. He painted in glowing terms the grandeur of the Exposition now in preparation, and closed by saying that the opportunity presented should not be lost. All opposition was then withdrawn, and St. Louis was chosen. This the third day of the convention is being held at the Hotel Majestic.

OFFICERS ELECTED In addition to the selection of the place for holding the next convention officers were elected as follows: President, Henry Doring, Troy, N. Y.; vice president, Henry J. Kramer, Los Angeles; secretary, P. B. Carpenter. Jr., Providence, R. I.; treas-urer, T. A. Holland, Springfield, Mass.; director, George T. Wilson, Portland, Me. The reviewing of dances from which a choice will be made of those most likely to become popular was continued to-day, the following being presented by the instructors, who respectively arranged them.

Gavotte Waltz—By D. B. Brennecke, Indianapolis, Ind.

New German figures were also presented by Walter Curtis of Utica, N. Y.; William Pitt Rivers of Brooklyn, N. Y.; George Prutting, Jr., of Hartford, Conn., end Henry Kramer of Los Angeles, Cal.

At least three of the dances reviewed will be chosen to-day for adoption by the organization, which will mean that various instructors of the society all over the country will teach them as specialties during the coming season. The choice will be announced at noon to-morrow when the convention closes.

Reform in dancing was not the only matter discussed. They want orchestras to play the time set forth in the music. Too much hasie, they say, is attempted in the playing of dance music, and if there is to be any reformation, it must begin with the orchestra.

FOOTBALL TACTICS BARRED.

FOOTBALL TACTICS BARRED.

Football tactics on the ballroom floor must stop. No more "Tale glides" or "Harvard dips" or distorted attempts to tread a measure in two-four time when the music calls for three beats in a bar. Such is the ultimatum of the society. War has been declared by the professors on what they call the invasion of their special field by college students. The dancing of the two-step to walts time and the grotesque positions assumed by the dancers are evils attributed to the college fads that have vitisted the public taste. "Some of these students," said Professor Oskar Duenzeg of Terre Haute, Ind., "invent a series of simian contortions and football tactics and call it the Tale glide' or the "Harvard dip" or some other abomination with a college name to it and the college thinks it is all right because the college men do it.

"Now, we want to stop all this and bring dancing back to the old style of graceful carriage that will enable the dancers to express the beauty of motion to music. The football rush type of dancing is a disgrace.

"A majority of people now seem to dance a two-step is easier to teach, as it is in common time and dancing it to waltz music is not a correct movement."

Attention was also drawn to the neglect in the large cities to the old square dances, which are still taught in the smailer centers. FOOTBALL TACTICS BARRED.

Army Order Revoked.

Washington, Sept. 2.-So much of paragraph 15, special orders No. 12, Aurust 28, 1968, War Department, as directs Major Herbert J. Slocum, First Cavalry Major Herbert J. Slocum, First Cavalry, to report by letter to the commanding General. Department of Texas, for assignment to station is revoked.

Major Slocum will remain on duty in charge of construction of new post at Camp George H. Thomas, Ga. until January 1, 1994, and will then report by letter to the commanding General of the department in which his regiment may be serving at that time for assignment to a station, and will proceed to join the station to which he may be assigned.

D. Ward King of Maitland, Ma., was in St. Louis yesterday on his way to New Albany, Ind., where he will address the Good Roads Convention to-morrow. The convention will be held under the auspices of the State Board of Agriculture. Mr. King is very enthusiastic over the improvement of roads in Missouri. He says that a bank at Harrisonville, Mo., has offered a cash prize for the best read in that vicinity, and that the residents and carriers of the free-delivery district near Cameron have offered 5 on each of the eight routes to the persons who keep the road in front of their premises in the best share.

best shape.

To the newspapers of the State Mr. King accredits much of the good work that has been done. He also praises the efforts made by the farmers and the Missouri State Board of Agriculture. NARROW ESCAPE FROM DEATH

Boat Crushes River House Occupied by Charles Gaylord. The steamboat Cape Girardeau in landing at the foot of Haven street yesterday morning crushed the houseboat in which Charles W. Gaylord and his wife were liv-

ing and they narrowly escaped with their Gaylord and his wife were asleep at the time the boat struck their river home. Gaylord in a traveling photographer.

The houseboat was crushed and the steamer's hull broken. The houseboat sank, and Gaylord and his wife had but a few minutes to run ashore.

After getting on shore, Mrs. Gaylord thought of some jewelry and started to run hack to get it, but was restrained by her husband.
